# **Lecture Bottle Equipment**

## Models 704 **Lecture Bottle Holders**

Model 704-B

Model 704-W

### Description

Lecture bottles have rounded ends and require some means of support when in use. The Model 704-B Non-Tip Stand is recommended when a regulator or other equipment is attached to the lecture bottle. The Model 704-W Wall Mount Bracket is made of plastic coated steel and has spring steel clamps to ensure firm, safe support of the lecture bottle.

### **Model 1191**

### Lecture Bottle Storage Cabinet

### Description

The Model 1191 Lecture Bottle Storage Cabinet ensures safe storage of hazardous gases in lecture bottles. Two (2) lecture bottle holders keep the lecture bottles safely in place. Minimum air velocity of 77 ft/min at 100 SCFM ensures proper venting to prevent any possible leaks from reaching the work environment. The compact size of the Cabinet allows for placement at the lab bench for easy access and handling. Safety glass window, key lock and NEMA 4 enclosure rating ensure additional safety. Equipped with two (2) Model 504 Cylinder Holders. Not designed for Lecture Bottles in service.
